NEW SOUTH WALES

STATISTICAL REGISTER.

1926-27.

PREFACE.

THE seven sectional parts of this volume have already been issued separately, and are now presented collectively, accompanied by a General Index covering the subjects treated. Every care has been taken to keep the work free from errors, but if any have escaped detection it would be deemed a favour if their nature were indicated.

The figures should be read in conjunction with the "Official Year Book of New South Wales."

The Government Statistician wishes to express his thanks to the Commonwealth Statistician, to the responsible officers of the various State and Commonwealth Departments, and to others, who have kindly supplied all desired information, often at considerable trouble.

Bureau of Statistics,
Sydney, 2nd November, 1928.

NOTE.—The figures quoted for 1841 and subsequent years represent the population of New South Wales within its boundaries after the separation of Queensland. Victoria was separated from New South Wales on the 1st July, 1851, and Queensland on the 10th December, 1859. The Federal Capital area of Yass-Canberra was transferred to the Commonwealth on 1st January, 1911.

Aborigines are included in the totals for the last six Censuses. The numbers included were 983 in 1871, 1,643 in 1881, 8,280 in 1891, 4,287 in 1901, 2,012 (of whom 10 were in the Federal Capital area) in 1911, and 1,597 (M. 923, F. 674) in 1921.

* The population of the Federal Capital area (997 males, 727 females, 1,724 persons) is excluded.

NOTE.—From the records of the 1861 Census, the ports at which ships were lying are not available, so that the shipping population of Sydney cannot be ascertained. The total shipping population was 1,910 (males 1,842, females 68), and two-thirds of that number have been assumed to have been in Sydney Harbour, and are included above.

Aborigines are included in the totals for the last six censuses.

* The Suburbs in 1921 comprised 40 Municipalities and Ku-ring-gai Shire.

*31st December, 1927.

Legislative Council.—A maximum number of members of the Legislative Council is not fixed by the Constitution Act. In December, 1927, the number of members was one hundred and one. Members receive no allowance for expenses, but travel free over the Government railways and tramways in the State. The President of the Legislative Council receives a salary of £1,200 per annum, and the Chairman of Committees £700 per annum.

Legislative Assembly.—New South Wales is divided into ninety electorates (Act No. 12, 1926), each being represented by one member. The Legislative Assembly continues for three years from the day of the return of the writs of election unless dissolved by the Governor. Each member (except when holding an office of profit under the Crown as a Minister, Speaker, or Chairman of Committees) is entitled to receive the sum of £875 per annum until he resigns or his seat is vacated, or, where Parliament has been dissolved or has expired by effluxion of time, until the day appointed for taking the poll for the next general election (Parliamentary Allowance and Salaries Act, 1925), by way of reimbursement for expenses incurred in the discharge of Parliamentary duties. Members travel free over the Government railways and tramways in the State and are provided with official stamped envelopes for the free transmission of correspondence through the post. The Speaker of the Legislative Assembly receives a salary of £1,675 per annum, and the Chairman of Committees £1,115 per annum.

* Unrecorded. † For Parliaments prior to the 16th, the figures represent Voters on the Roll, irrespective of the number of distinct electors; plural voting was abolished in 1894, and for Parliaments from the 16th to the 20th inclusive the figures represent Electors upon the Roll to whom Electors' Rights had been issued. Electors' Rights were not required at subsequent elections, and for Parliaments from the 21st to the 24th the figures represent Electors upon the Roll; the figures for the 25th, 26th, 27th, and 28th Parliaments indicate the number of Electors qualified to vote. ‡ Includes Second Ballot figures. § Not available.

*Commander.

Defence Act, 1903–27 (*Commonwealth*).—This Act provides that all male inhabitants of Australia (except a few exempted by the Act) who have resided therein for six months, and are British subjects, and reside within 5 miles of a training centre, shall be liable to naval or military training, as follows:—(*a*) From 12 to 14 years of age, in the Junior Cadets; (*b*) from 14 to 18, in the Senior Cadets; (*c*) from 18 to 25, in the Citizen Force; and (*d*) from 25 to 26, in the Citizen Force. For the present, however, training is limited as follows:—

(a) Junior Cadets—training in abeyance from 1st July, 1922, but was resumed on 1st July, 1924

(b) Senior Cadets—training limited to one year. This training commences on 1st July, of the year in which Senior Cadets reach the age of 17 years.

(c) Citizen Forces—training limited to three years. This training commences on 1st July of the year in which trainees reach the age of 18 years.

Notwithstanding these limitations persons liable to be trained under Part XII of the Defence Act are still required to register themselves for training during the months of January and February of the year in which they reach the age of 14 years.

The Royal Military College of Australia is situated at Duntroon, near Queanbeyan, and the Royal Australian Naval College at Jervis Bay.

No. 18.—Distribution of Total Loan Expenditure to 30th June, 1927.

NOTE.—The total loan expenditure has no necessary relation to the public debt, although at times the amounts are approximately the same. The former is continually increasing according to the amount of loan moneys spent annually, while the public debt outstanding may be either reduced by the redemption of loans from revenue or increased by the issue of new loans, and may include large sums in hand.

(See Table 18.)

NOTE.—The difference between the actual Loan Expenditure stated below and the Public Debt, as shown in No. 20 and following tables, is due to the fact that the outstanding debt represents the gross amount sold, while the expenditure is the net amount after deducting discount and expenses of flotation and allowing for debit balance of Loan Account.

No. 20.—Public Debt—Amount Authorised, Sold, Redeemed, and Outstanding, 1900-1927.

NOTE.—The difference between the amounts outstanding at the close of each year does not, as a rule, represent the actual increase or decrease in the Debt. Repayments of loans are generally effected under the head of renewals, and in following out this practice, it is usually found necessary to float the redeeming loan some time before the due date of the maturing loan; hence the liability appears twice in the Debt Statement till the bonds or stocks are retired.

London Agents.—Operations connected with the issue and inscription of Stock are conducted by the Bank of England and the London and Westminster Bank. The former charges ¼ per cent. per £100 Stock on all loan issues, and £350 per million annually for the inscription and management of Stock including the payment of the half-yearly dividends, while the latter charges ¼ per cent. and £150 per million respectively for similar services.

Local Agents.—The Bank of New South Wales and the Commercial Banking Company of Sydney, Limited, transact all Government banking business. The former acts as Financial Agent for the State in Victoria, and also undertakes the payment of the half-yearly dividends on Local Debentures and Funded Stock The Treasury however, in local loan issues, directly conducts the operations connected with the issue of New South Wales Funded Stock and Treasury Bills.

* Information not supplied in all cases.

Amount of Consideration.—Many mortgages do not state the amount lent under them, and many discharges do not disclose the amount received in consideration. The figures representing "Amount of Consideration" under both these heads are therefore considerably less than the amounts actually advanced or repaid.

Sums secured by Lien on Wool and by Mortgage of Sheep.—When any sum has been secured, both by a lien on the wool and by a mortgage of the sheep, the amount is included under both heads.

In 1926 the gross amount lent on liens was £2,102,903 and in 1927, £2,260,895; but from these amounts has to be deducted the sum of £557,054 in 1926 and £786,921 in 1927 secured both by lien on the wool and mortgage on the sheep, so that the net amount lent on lien was £1,545,849 and £1,473,974, in the respective years.

Mortgages on Wool and Crops discharged.—Liens on wool and on growing crops mature at the end of each season, and terminate without formal discharge. During 1926 there were 64 and in 1927, 72 formal discharges of wool liens registered, representing £100,164 in 1926 and £46,829 in 1927.

NOTE.—Many mortgages of Stock come to an end without formal discharge.

Assurance Fund.—To provide compensation to persons who, through error, may have been deprived of their properties, an Assurance Fund has been created by a contribution of one half-penny in the pound levied on the declared capital value of land brough under the Real Property Act. On 10th September, 1906, the amount at credit of the Assurance Fund under the Real Property Act, viz. £255,058 14s. 1d. was transferred to the Closer Settlement Fund established by the Public Works and Closer Settlement Funds Act of 1906.

No. 87.—Number and Value of Estates of Deceased Persons, and Settlements, classified—year ended 30th June, 1927.

NOTE.—The rates of duty quoted were imposed under the Stamp Duties Act, 1920, which came into force on the 1st January, 1921. Half rates are charged the property passes to the widow or to any children under 21 years of age, if the total net value of the estate is under £5,000.

* Excludes Federal Capital Territory.

No. 93.—Municipalities—Valuations of Ratable Property for year ended 31st December, 1926.

NOTE.—In this table the *Unimproved Capital Value* is the amount which the fee-simple estate in such land is worth under such reasonable conditions as a *bond-fide* seller would require, assuming the actual improvements had not been made.

The *Improved Capital Value* is the amount which the fee-simple estate of the land is worth, with all improvements and buildings thereon.

The *Assessed Annual Value* is nine-tenths of the fair average rental of land with improvements thereon.

* Under the Fire Brigades Act of 1909, which came into operation on 1st January, 1910, the responsibilities of all the fire brigades in the State were transferred to the Board of Fire Commissioners of New South Wales. The revenue of the country fire brigades is derived from contributions from the Government, the municipal or shire councils interested in the respective fire districts, and the fire insurance companies insuring property within such districts, in the proportions of one-fourth, one-fourth and one-half respectively. This sum represents practically the expenditure for the year.

† Outside Fire Brigade area. ‡ There were in addition 32 chimney fires and 94 false alarms.

Religious Instruction.—Under the Public Instruction Act (43 Vic. No. 23), which came into force on 1st May, 1880, it is provided that the instruction imparted at Public Schools must be absolutely unsectarian. "Secular instruction" is defined by the Act as including "general religious teaching as distinguished from dogmatical or polemical theology." Provision is made for authorised teachers of any denomination to give religious instruction at specified hours to the scholars belonging to their religion, and separate class rooms are provided generally for this purpose. The total number of visits paid to State schools during 1926 by authorised teachers was 99,401, namely :—Church of England 46,476; Roman Catholic, 2,778; Presbyterian, 16,789; Methodist, 21,567; other Denominations, 11,791.

Subsidised Schools.—Subsidies are granted only in the case of children resident in thinly-populated country districts, so far removed from any Public School that attendance is impracticable. The conditions are that where a private teacher is engaged by two or more families in combination, or by a single family with not less than four children of school age, such teacher, if approved by the Minister may be paid subsidy as follows:—

> "In the Eastern portion of the State at the rate of £5 per pupil per annum on the average monthly attendance, such aid not to exceed £50 yearly, and in the Western portion of the State, £6 per pupil per annum, not exceeding the sum of £60 yearly. The Western portion o the State shall be that portion within which living allowances are granted to Officers under the Public Service Board."

Subsidy may be paid also to a parent as an aid towards the boarding of the children with friends or relatives in a township for the purpose of attending a Public School, at the rate of 6d. per day in the Eastern Division of the State, for each full day's attendance, up to a maximum of £5 per child, per annum and at the rate of 7d. per day, up to a maximum of £6 per child, per annum, in the Western Division of the State.

Superior Public Schools.—In addition to the above Superior Public (Day Continuation) Schools, established in 1912, composite courses were introduced into Country Schools in 1920 and have a definite aim. Course A leading to the Intermediate Certificate, Course B to the Commercial Superior Public School Certificate, while Course C qualifies pupils for the Public Service Entrance Examination.

These courses meet a distinct demand for the super-primary education of children attending schools in more or less sparsely-populated localities. The number of schools engaged in this work at the end of 1926 was 682, having an effective enrolment of 4,178 post-primary pupils, with an average attendance of 3,583. The reduction in the number of these schools in comparison with 1925 is due to the transfer of a number of schools to the Correspondence Section.

The Teachers' College, Sydney, provides various courses preparing teachers for positions as rural school teachers, primary kindergarten, and secondary school assistant teachers. Courses range from twelve months—for rural school teachers—to three and four year courses, leading to graduation in Arts or Science. In addition to academic work at the College, students are given practical work in the Demonstration Schools at Blackfriars, North Newtown, and Darlington, and at selected supplementary practice schools. The number of volumes in the College Library is 27,244.

* After having graduated in Medicine.

Under its Charter, the University of Sydney may confer, after examination, degrees in Arts, Law, Medicine, Science, Engineering, Dentistry, Veterinary Science, Agriculture, Economics, and Architecture; but not in Theology and Divinity. Graduates of Sydney University rank equally with graduates of British Universities.

Under the Act of 1884 women have all University privileges; and degrees may be granted to women in all branches of knowledge.

Faculties.—There are now ten Faculties: Arts, Law, Medicine, Science, Engineering, Dentistry, Veterinary Science, Agriculture Economics, and Architecture.

NATIONAL PARKS.—The following parks are outside the Metropolitan area, but may be specially mentioned on account of their national character.—The National Park, 33,800 acres, at Port Hacking; Kurnell, Captain Cook's landing-place on Southern headland of Botany Bay, 248 acres; Kuring-gai Chase (part not included in Kuring-gai or Warringah Shires), 16,920 acr, on Hawkesbury River; Parramatta Park, 252 acres, at Parramatta; Lady Fuller's Park, 13¼ acres, at Sublime Point.

TRUSTEES OF PARKS.—Under the Public Parks Act the Governor may appoint Trustees of any lands proclaimed for the purposes of public recreation convenience, health, or enjoyment. The Trustees are empowered to frame by-laws for the protection of shrubs, trees, etc., upon the land vested in them, and regulate the use and enjoyment of such land by the public.

This table is incomplete as information is not available of all parks and reserves acquired by municipalities by purchase or private grants.

NOTE.—Particulars include estates administered by the Public Trustee.

Gross and Net Value of Estates.—The figures from the Probate Court and from the Stamp Duties Department (see Part "Public Finance") relating to transactions in the estates of deceased persons do not agree. The Court gives the gross value of the estates, and includes those estates which, after investigation, are found not to be subject to duty. The number of petitions is also swollen by probates and letters of administration on some estates being taken out a second time. The amount given by the Stamp Duties Department represents the net value of the estates.

Courts of Marine Inquiry.—In respect of British ships, these Courts hear and determine inquiries as to wrecks and other shipping casualties, or as to charges of incompetency or misconduct on the part of masters, mates, or engineers. Appeals and references under the Navigation Act (No 60, 1901) are also heard and determined. One or more District Court Judges constitute a Court of Marine Inquiry, and the Court is assisted by the assessors appointed under the said Act, but such assessors have power only to advise and not to adjudicate on any matter before the Court.

* Now Land and Valuation Court Cases.

† Only 2 of these were cases stated by a magistrate. Of the others, 1 was a case stated by the Judge in Divorce, 1 was an appeal against Income Tax Assessment, 1 was an appeal under Navigation Act, and 1 a case stated by the Attorney-General for the opinion of the Court.

‡ In 1922, 2 were cases referred by Judges and 4 were against Taxation Assessments; in 1925 this case was stated by the Commissioner of Stamp Duties, and 1926 includes 1 case stated by the Commissioner of Taxation and 2 cases by the Commissioner of Stamp Duties.

§ Only 1 of these was a case stated by a magistrate. Of the other cases stated, 1 was by the Judge in Divorce, 1 by the Licenses Reduction Board, 2 by the Commissioner of Stamp Duties, and 1 by the Registrar-General.

‖ One stated by Licenses Reduction Board, and 1 stated by a District Court Judge.

¶ Case stated by Commissioner of Taxation.

Special Cases from Courts of Petty Sessions must be brought, in the first instance, before the Judge sitting in Public Chambers, who is vested with the authority and jurisdiction of the Supreme Court and who may refer such cases to the Full Court. Land Appeal Cases and cases under Local Government Act, 1906, are set down for argument before the Full Court only. Special Cases from Wardens' Courts are brought, in the first instance, before the Judge sitting in Public Chambers, unless both parties consent to place their case before the Full Court. The Judge may refer any such case to the Full Court.

* Chairmen of Conciliation Committees are paid an annual salary fixed by the Minister. Members of Committees, other than the Chairman do not receive remuneration by way of salaries or fees, but all members are reimbursed fares and out-of-pocket expenses as approved by the Minister. (Industrial Arbitration (Amendment) Act, 1926, sec. 8 (1) and (6).)

Commonwealth System of Conciliation and Arbitration.—The Commonwealth Court of Conciliation and Arbitration exercises jurisdiction in relation to industrial disputes extending beyond the limits of any one State, its awards are binding only on the parties to the disputes. Similar powers may be exercised by special tribunals appointed under the Industrial Peace Acts, 1920, for the prevention or settlement of industrial disputes. Registered Industrial agreements have the force of awards. On 30th June, 1927, there were 125 awards and 92 agreements in force in New South Wales. The Public Service Arbitrator determines conditions of employment in the Public Services of the Commonwealth; 32 determinations were in force in New South Wales as at 30th June, 1927.

Appeals.—The right of appeal may be exercised only in causes in which the amount claimed exceeds £10, and the appeal must be made either on points of law or in respect of the admission or rejection of evidence.

Causes tried by Jury.—In all actions where the amount claimed exceeds £20, the Judge may order, or the plaintiff or defendant may demand, that a Jury be summoned, by giving notice to the Registrar of the Court.

Number of District Courts.—At the end of the year 1926 there were 62 District Courts in the State, and 7 District Court Judges.

NOTE.—In addition to the inebriates shown in the returns, all of whom were dealt with under the provision of the Inebriates Act, 1912, 31 males and 31 females were admitted to Shaftesbury Institution as voluntary patients, and they paid for their maintenance while inmates of such institution. Of these, 5 males and 10 females were remaining on 30th June, 1927.

The expenditure on these institutions for the year ended 30th June, 1927, was: Salaries £3,116, contingencies £1,213, and £378 on buildings. Total £4,707.

The Inebriates Act.—The Inebriates Act, 1912, provides for the special control and treatment of inebriates. Where a person has been convicted of an offence of which drunkenness is a component, or of assaulting women, cruelty to children, attempted suicide, or wilful damage to property, and it appears that drunkenness was a contributing cause of such offence, a Stipendiary or Police Magistrate may order that such offender be placed for a period of twelve months in a State Institution established by the Governor for the treatment of inebriates. On the order of a Judge, or of the Master-in-Lunacy, such period may be extended for further periods not exceeding twelve months each. Where a person has, after 9th September, 1909, been discharged from a State institution, or released on license, or discharged on recognizances, and within twelve months thereafter has been convicted of an offence of which drunkenness is a component, and has subsequently and during the said twelve months been charged with any offence, as herein mentioned, the Court may order him to be placed in a State Institution for a period not exceeding three years. Inmates are employed in remunerative and useful occupations.

Punishments inflicted on Prisoners for breaches of discipline.—During 1926-27, 1·8 per cent. of the prisoners received punishment, and the offences were generally of a trivial character. There have been no floggings, ironings, or other severe forms of punishment, and the dark cells were abolished years ago.

Gaol Libraries.—The Gaol Libraries contain 24,192 carefully-selected volumes for recreation and instruction of prisoners after working hours.

First Offenders.—Under the provisions of the Crimes Act of 1900, as regards any person who has not been convicted previously of an indictable offence in New South Wales or elsewhere (in so far as is known to the Ccurt) and is convicted of a minor offence, and is sentenced upon such conviction to penal servitude or imprisonment, the Court may suspend the sentence upon the offender entering into a recognizance, with or without sureties, to be of good behaviour for the period of such sentence if for twelve months or over; or, if under twelve months then to be of good behaviour for the full period of twelve months.

Children Released after Conviction.—The Child Welfare Act No. 21 of 1923 provides that where a child is summarily convicted of an offence entailing imprisonment, the Court may release the child on probation upon such conditions as may seem befitting.

Females Released after Conviction for Soliciting for Immoral Purposes.—The Vagrancy Act 74, 1902, provides that when a female is arrested for any offence under section 4, sub-section 1 (i), the convicting Justice may suspend sentence upon such terms and conditions as he thinks fit.

No. 17.—Imports Oversea, 1926-27.

(From 1st July, 1926, to 30th June, 1927.)

NOTE.—With the exception of Great Britain and Northern Ireland, Irish Free State, and New Zealand, and in cases where a single country is concerned, only those countries are shown under each article where the value of import exceeds £500. Particulars in the following table refer to "Country of Origin"; details of country of direct shipment are not available.

Value of Imports.—The value of all goods imported from countries beyond the Commonwealth represents the amount on which Duty is payable or would be payable if the Duty were *ad valorem*.

Quantities.—Generally, but not invariably, quantities have been shown in the ordinary trade unit. Where Imports have been declared in packages without an indication of the number, capacity, or weight of the articles imported, only the values have been inserted.

N.E.I. means "Not elsewhere included."

Import Duties.—Duties charged on Imports into New South Wales are collected under the Commonwealth of Australia Customs Act, 1921-1925; the Customs Tariff, 1921-1926, and Amendments; Customs Tariff (New Zealand Preference) 1922.

Where reference has been made by footnote against any article in this table, fuller details may be obtained on reference to the Customs Statistical Classification.

Total Imports, Oversea, 1926–27, £68,940,081. **Gross Duty received, £14,715,963.**

No. 18.—Exports Oversea, 1926-27.

Note.—With the exception of Great Britain and Northern Ireland, Irish Free State, and New Zealand, and in cases where a single country is concerned, only those countries are shown under each article where the value of the export exceeded £250.

The difference between the value of Australian produce exported and the total export represents the value of produce of oversea origin, re-exported.

Value of Exports.—The value of goods exported is the value in the principal markets of the State in the ordinary commercial acceptation of the term.

Exports—Australian Produce.—Articles which were partly or entirely manufactured from imported materials are shown under this heading. The Commonwealth Customs Department does not now distinguish between the produce of New South Wales and that of other States, the whole being classified as "Australian."

Quantities.—Generally, though not invariably, quantities have been shown in the ordinary trade unit. Where exports were declared in packages, without an indication of the number, capacity, or weight of the articles exported, only the values have been inserted.

N.E.I.—Means "Not elsewhere included."

Ships' Stores.—Goods shipped as ships' stores on board oversea ships have not been included in exports. For ships' stores, see Table No. 19.

No. 47—Harbour and Wharfage Rates, 1927.

Harbour and Wharfage Rates in the port of Sydney are collected by the Sydney Harbour Trust and in other ports by the Department of Navigation of New South Wales. Inward rates are payable in respect of goods brought by sea for landing, and outward rates on goods shipped on a vessel. Special inward rates are prescribed for certain articles produced and shipped within the Commonwealth, and the inward rates for other goods are those shown under the heading of General Rates. At ports other than Sydney separate schedules of rates apply to coastwise goods. In Sydney Harbour outwards rates are not levied on any consignment under 2 tons. Goods transhipped are subject to transhipment rates, and not to inward or outward harbour or wharfage rates. Passengers luggage is exempt.

NOTE.—Transhipment rates on coastwise goods at Ports other than Sydney are charged at half inward rates.

Storage Charges are imposed on goods left on a wharf beyond a prescribed time, unless the wharf is held under lease. The free period for inward goods in Sydney is six days after the final discharge of a vessel, otherwise it is two days. The rates per day in Sydney are 4d. per ton during first week, 5d. during second week, 6d. during third week, and 7d. thereafter. In other ports the rates are 2d., 3d., 4d., and 6d. respectively. The charges for storing timber after two days are at the rate per day of 1d. per ton during first four days; thereafter 3d. in Sydney and 2d. in other ports.

No. 59.—Prospecting Votes, 1917-27.

Prospecting Vote.—The sum of £7,000 was voted for prospecting for gold in 1878; and in subsequent years, at irregular intervals further small sums were voted and expended. In accordance with a resolution of Parliament, an amount has been voted each year since 1887, during which year it was confined to searching for gold. In the succeeding year the conditions were amended so as to embrace all minerals.

NOTE.—This table does not include iron made from scrap, valued, at 31st December, 1927, at £1,416,030; lime, valued at £1,360,096; Portland cement, valued at £13,848,940 and coke valued at £12,145,814, respectively. Emeralds and turquoises have been found in small quantities, but no information is obtainable as to their value.

These figures represent the value of minerals won during the year, and therefore differ from those in Tables Nos. 73 and 76, which show the value (at the mines, and before treatment) of the output from mines in operation during the year.

* Includes all quarries. Prior to 1925, only those held under mining title were included.

Section II—WAGES.

No. 4.—Rates of Wages in Various Industries, 31st December, 1927.

The Minimum Rates of Wages, as shown in the following tables, have been fixed by awards of the Court of Industrial Arbitration and of the Industrial Boards of New South Wales, or, in the case of a few industries, by awards or agreements under the Commonwealth Conciliation and Arbitration Acts. In relation to certain domestic occupations which do not come within the scope of any industrial award, average rates have been stated.

The rates relate to the Metropolitan district except in the following cases:—The mining and shipping industries, agricultural and pastoral pursuits, and several important works situated in country districts, for which special awards have been made, viz., the Portland Cement Works, the Lithgow Iron Works, and the Newcastle Steel Works. The living wage in N.S.W. was declared on 7th September, 1923, at 82s. per week for men, and 41s. 6d. per week for women, and these rates prevailed until the 24th August, 1925, when the living wage was raised to 84s. per week for males, and 42s. 6d. per week for females. On the 15th December, 1926, the Industrial Commission declared a living wage of 84s. per week for males. On 27th June, 1927, the living wage was raised to 85s. per week for males, and 46s. per week for females.

Hours of Work.—The Forty-four Hours Week Act came into force on the 4th January, 1926, and the forty-four hour week is now in operation in practically all industries.

The number of working hours per week in the different industries at the 31st December, 1927, is shown in each case.

NOTE.—The great majority of females engaged in rural occupations are employed in conjunction with domestic duties, very few being returned as working for wages. Since 1919 a more careful collection has been made of the number of females engaged in rural pursuits, and it would appear that previously about 12,000 females were included each year (*e.g.*, wives of proprietors) who were engaged wholly in domestic duties. The number of females quoted in the above table for years prior to 1920 represents, therefore, the number as returned, less 12,000.

NOTE.—In the earlier years "Establishments" included butcher shops held in conjunction with slaughtering businesses, and the "Persons Employed" included butchers engaged in these shops. The shops have been omitted since 1916-17, and since 1918-19 only persons actually engaged in slaughtering have been included.

* An area of 9a. 3r. 37½p. auction sales was annulled and 1r. 12½p. restored. † The figures quoted represent the area on which the balance of purchase-money was paid during the year, and consequently average price per acre cannot be given. †† Exclusive of 79 acres of land resumed.

Surrenders, Exchanges, and Road Resumptions.—Surrenders and exchanges are effected under Sections 195, 196, 197 of the Crown Lands Consolidation Act, 1913, and Road Resumptions are treated under the Public Roads Act, 1902. As land is exchanged for land without any monetary consideration the extent of the area of Crown Lands is not thereby affected.

Resumptions and Purchases.—The total alienations represent the gross area, no allowance being made for the gifts of land and the resumptions and direct purchases made from private owners on behalf of the various Departments, for particulars of which see Table No. 84.

* Reduction in number of lessees is due to joint lessees transferring to individual lessees, farms being forfeited and surrendered, and conversions into freehold basis.

† Balance of area not occupied as farms comprises roads, channels, and other reserves, including permissive occupancy.

‡ Particulars for 1925 are exclusive of 1 farm of 25 a. 1 r. 2 p. granted on a freehold basis; in 1926, 6 farms of 119 a. 0 r. 22 p. grante on a freehold basis, and 15 farms of 233 a. 2 r. 28 p., held as permissive occupancies with a view to purchase when set apart for application, and in 1927, 69 farms of 1,196 a. 3 r. 2 p., granted on a freehold basis; 4 farms of 75 a. 0 r. 23 p., held under permissive occupancy, etc., and 32,350 acres of non-irrigable land held under lease other than perpetual lease.

NOTE.—In addition to the farms shown above in the Murrumbidgee Area in 1926, there were 17,870 acres of irrigable and non-irrigable lands held under perpetual lease, and in 1927, 18,964 acres were similarly held; 3,497 acres were held under permissive occupancy, with the view to be taken up under perpetual lease in 1926, and 2,108 acres in 1927. 139,152 acres of "dry area" lands were held under long lease (other than perpetual lease) in 1926, and 163,462 acres in 1927. Four farms of 80 acres and four Town Blocks of 1 acre, had also been granted on a freehold basis up to 30th June, 1926, and six farms of 154 a. 1 r. 7 p., and fifteen Town Blocks of 19 a. 2 r. 14½ p., to June 30, 1927.

*The returns were collected from holdings over 1 acre in extent on which improvements had been effected, and upon which agricultural or pastoral activities were conducted; in that they covered all lands particulars of which serve a practical purpose. Prior to 1920 many holdings, nearly all from 1 to 5 acres in extent were included, which were not used for agricultural or pastoral purposes.

† Particulars of area cultivated will be found in Table 1 of Section I, Primary Production.

‡ The definition of Unimproved Capital Value and Improved Capital Value will be found on page 176, of Part II, relating to Local Government.

NOTE.—From the year 1919-20 the returns were collected from holdings over one acre in extent on which improvements had been effected and upon which agricultural or pastoral activities were conducted; in that they covered all lands particulars of which serve a practical purpose. In previous years many holdings, nearly all from 1 to 5 acres in extent were included which were not used for agricultural or pastoral purposes.

Time Ball.—The Time Ball at the Sydney Observatory is dropped every day at 1 p.m. Standard Time. The Time Ball at Newcastle is controlled by signals from the Sydney Observatory.

Standard Time.—The mean time of the 150th meridian of longitude east of Greenwich, England, is the Standard Time throughout New South Wales, with the exception of the area within the Municipal District of Broken Hill and the Electorate of Sturt, for which the mean time of the 135th meridian of east longitude is adopted.

Position of Sydney Observatory.—Latitude, 33° 51′ 41·1″ south; longitude, 151° 12′ 23·10″ east; altitude, 138 feet.

Month.	Self-registering Barograph, corrected to 32° Fah. and Standard Gravity at Lat. 45°, but not to Mean Sea-level. Height above mean sea level:—138 feet.						Mean Height of Standard Barometer, corrected to 32° Fah. Gravity and Mean Sea-level.

Thermometers.—Up till April, 1917, the thermometers were exposed in a shed 11 feet square, of which the sides were 5 feet 6 inches high, and enclosed to within about 30 inches of the ground with open lattice work. The roof was conical, rising to 13 feet above the ground, and was covered with louvres close enough to keep out rain. From April, 1917, the thermometers have been exposed in a standard Stevenson een.

No. 114.—Meteorological Conditions, New South Wales—1927.

A marked shortage of rain was experienced over most of New South Wales from May to September, and was responsible for the decrease in the wheat harvest and considerable losses in sheep. The Southern and South-western districts were more favoured during this period, and the harvest in this area was moderately satisfactory. In many Northern and Central portions of the wheat belt the crops failed entirely. The extreme West and North-west experienced a rain shortage until December.

In January practically all of the Eastern half of the State had good rains, with very heavy falls and floods on the North Coast. Dry conditions prevailed generally during February. except on the North Coast, with severe heat and at times drying winds. The dry conditions continued in the South-west and far West during March, but moderate to heavy rains were experienced elsewhere. A severe cyclonic storm in April caused torrential rains of ten to over twenty inches in Coastal areas south of Port Macquarie and on the Central highlands, with floods; other divisions of the State had good rains, with the exception of the Riverina, the South-west Slopes and the Western Division.

During the next five months the rain was generally deficient over the State, although South-western and Southern areas received fair to good falls. The shortage gradually became more severe, being most marked in July. During August and September various parts of Central, Southern and Coastal divisions received fair rains, but the rain shortage continued elsewhere, particularly in Northern inland parts. Tropical depressions became the chief weather control during October, November and December, and caused good rains in practically all divisions. Although the falls were generally too late to save much of the failing wheat-crops they were of great value in assuring summer feed and replenishing water supplies.

The total rain for the year exceeded the normal over most of the Coastal areas north from Wollongong, at a few places on the Southern and Northern tablelands, on the Blue Mountains and in several parts of the North-west. The falls were below normal elsewhere, and the shortages at many places exceeded six and eight inches, and at several stations over ten inches. Most places West of the Darling received less than five inches.

No. 114.—Meteorological Conditions, New South Wales—1927.—*continued.*

The most severe heat spells occurred in January and February, the highest temperature for the year being 116 degrees at Menindie. The long period of rain shortage from May to September was marked by colder conditions than usual, and there were frequent extensive and severe frosts. The lowest temperature of the year was 5 degrees at Kiandra on 1st, 10th and 11th June and 23rd July.

The outstanding cyclone of the year was that which swept the Coast at Easter between April 15th and 19th, when terrific southerly gales caused great damage with loss of several lives. There were several other tropical disturbances of cyclonic character which affected the Coast of this State.

At Sydney the rain for the year totalled 4,856 points (110 points above normal); the highest temperature was 100·5 degrees on March 18th and the lowest 38·9 degrees on August 18th; the mean of the maxima or day temperatures was 70·1 degrees (equal to normal), and the mean of the minima or night temperatures 55·2 degrees (1·0 degrees below normal); the greatest wind velocity was 64 miles per hour from South on April 18th.

The following is a résumé of the weather conditions prevailing in each month of the year:—

January.—Moderate to heavy rains were registered over practically all the Eastern half of New South Wales during this month. Very heavy falls on the North Coast were responsible for floods in the valleys of the Tweed, Richmond and Clarence Rivers, and there were some very heavy downpours in inland districts. The month's rain on the Far North Coast ranged up to over 34 inches at Mullumbimby. The rainfall was negligible in most of the Western Division and Riverina.

Some severe heat spells were experienced, and temperatures in the West ranged up to 116 degrees at Menindee.

February.—Dry conditions were experienced generally during February, and little or no rain of importance was recorded except on the North Coast, where there were some good falls of five inches and over.

The hottest part of the month was from the 17th to 19th, when very high temperatures were registered in the West; the highest being 112 degrees at Wilcannia and White Cliffs. Hot drying winds were experienced with dust-storms at many places.

March.—Dry conditions continued in most of the Far Western, South-western, Southern and Central areas of the State during March, with little or no rain. Fair to good rains were registered in most of the Coastal areas, on the Northern highlands and in parts of the North-west. The heaviest falls were those which fell in the lower valley of the Hunter River between the 11th and 13th, when Clarencetown and Stroud each registered six inches.

Very severe heat was experienced between the 16th and 18th, when temperatures ranged up to 112 degrees at Wilcannia.

April.—The outstanding feature of this month was the severe cyclonic storm which swept Eastern New South Wales between the 14th and 19th, causing torrential rains of ten to over twenty inches in Coastal areas south of Port Macquarie and on the Blue Mountains. Floods resulted in these districts, causing considerable losses and damage, while very severe southerly gales raged along the seaboard. Fair to good rains fell also during the month on the North Coast, Northern Tableands, North-west Slopes and Plains, and parts of the Central west. Dry weather with little or no rain continued over the Western Division, the Riverina, South-west Slopes, and parts of the Central west and Souther Tablelands.

The highest temperature was 94 degrees at Wilcannia. and the lowest 22 degrees, at Kiandra.

May.—Fair to good rains of two, three and four inches fell on the South-west Slopes, Southern Tablelands, South Coast and Central Coast during May, and conditions improved slightly in the Riverina with falls of about an inch. Over all other parts of the State, however, the rainfall was negligible.

The last week was particularly cold, with temperatures ranging down to 12 degrees at Kosciusko; the highest temperature was 88 degrees at Tibbooburra.

June.—Only a few places in the Far North-west and on the Central and North Coast and the Northern Tablelands received falls above normal during June; at all other places the rainfall was only light to moderate, representing one-quarter to three-quarters of the normal. The rain shortage was further accentuated by severe cold and heavy frosts. The highest temperature was 79 degrees at Casino, and the lowest 5 degrees at Kiandra.

July.—Fair rains occurred in the far South-west, the Riverina, South-west Slopes and Southern Tablelands during July, but dry weather prevailed in all other parts of the State with little or no rain, and the position was far from hopeful in much of the pastoral and wheat country.

Clear cold nights were experienced with widespread and severe frosts; snow fell frequently on the Southern Highlands and extended to the Blue Mountains on a few occasions. The extremes of temperature were 84 degrees at Casino and 5 degrees at Kiandra.

August.—The rain-shortage continued over most of the State during this month, and the position in much of the pastoral country and a considerable area of the wheat belt became more unfavourable; considerable sheep losses were reported, and many wheat crops failed. The only divisions to receive fair to good rains were the Riverina, South-west Slopes and Southern Tablelands, where the falls were nearly up to normal. The rainfall was light in other divisions, and averaged only 25 to 50 per cent. of the normal.

Extensive and severe frosts were again experienced. Temperatures ranged between 6 degrees at Kiandra and 82 degrees at Lismore.

September.—The serious shortage of rain continued over most of the State during the greater part of September, but during the last week there was a change in the general weather conditions, and fair to good rains occurred in many parts of the Central-west Plains, the Central Slopes and Central Highlands. Good rains fell also on the Far North Coast and on parts of the South Coast and Southern Tablelands. The rainfall was light in all other districts, however, and considerably below normal.

The highest temperature was 100 degrees at Tibooburra and the lowest, 13 degrees, at Kiandra. A particularly cold change spread over the State on the 24th and 25th.

October.—The rain shortage was considerably relieved over most of the State during October by falls above normal in most districts, the chief exceptions being Northern parts of the Western Division, and parts of Central and North-western areas. The Riverina, South-west Slopes, Southern Tablelands, South Coast received the best falls.

The highest and lowest temperatures were 104 degrees at Wilcannia and 24 degrees at Kiandra, respectively.

November.—The October rains, which partially broke the long winter and spring rain-shortage, were followed during November by more good falls over many of the adversely-affected areas. The Riverina and much of the Western Division received only 40 to 80 points but all other parts of the State averaged over 2 inches, while the most of the Coastal areas and Tablelands, and the North-west slopes averaged over 4 and 5 inches.

Very heavy falls were experienced on the Central and North Coast towards the end of the month, and floods occurred in some parts.

The highest temperature was 110 degrees at Bourke and Wilcannia, and the lowest, 25 degrees, at Kiandra. A decidedly cold snap was experienced towards the end of the month and caused heavy losses of sheep in a number of districts.

December.—Very good rains fell over the Northern half of the State during this month, and also in many of the Central areas, due to the persistence of tropical depressions. In many parts of the North-west and West the falls were very heavly and further improved the pastoral position. The rainfall was considerably below normal in South-western and Southern areas.

Conditions were generally cooler than usual for this period of the year, and there were no spells of excessive heat; the highest temperature was 105 degrees at Berrigan and the lowest, 28 degrees, at Kosciusko and Kiandra.
